From modern metals research comes Revere Ware's new three-ply construction—stainless steel inside, stainless steel outside, solid copper core. It spreads heat evenly, requires less heat, therefore less fuel. You cook more efficiently. And with stainless steel outside the utensil as well as inside . . . cleaning your new Designers' Group is no trouble at all.

THE WORLD'S FINEST COOKING UTENSILS

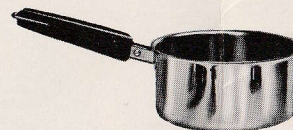

Good cooks know *copper* cooks best. It heats fast, evenly—makes cooking with Revere Ware so easy and pleasant. Now, from the makers of the famous copper bottom Revere Ware comes *copper core* stainless steel Designers' Group, where copper works unseen to spread heat *across* the bottom and *up* the sides. The ideal cookware for a lifetime of good cooking and perfect to give as a gift that will be wonderfully useful and always appreciated.
